The AMI Plastics World Expos are heading to Brussels

The AMI Plastics World Expos bring together international compounding, recycling, and extrusion communities to collaborate, learn, and do business. It's the perfect platform for your company to generate sales leads, strengthen existing relationships, and enhance its profile with a focused audience interested in your products and services.

The established Compounding World Expo and Plastics Recycling World Expo are now joined by the popular Plastics Extrusion World Expo which has proved hugely popular in the USA. The combination of these focused expos opens doors to new markets and makes the most of the considerable crossover between the extrusion, recycling, and compounding industries.

Each free-to-attend expo features a dedicated conference theatre with high-quality programmes curated by AMI's consulting, editorial and conference teams.

Exhibiting at the AMI Plastics World Expos provides a cost-effective and time-efficient way to grow your business. Our all-inclusive stand packages keep things simple, while our competitive pricing ensures an excellent return on investment.

Why exhibit?

Build new leads and grow your sales pipeline

Present your latest products and services to a focused and engaged audience

Benefit from an extensive promotional campaign in AMI's five magazines

Reconnect with existing customers face-to-face

Gather market intelligence and gain valuable insights at this major industry gathering

Raise your brand awareness throughout the supply chain

New for 2024

Plastics Extrusion World Expo

Building on the success of the North American show, this expo will increase visitor numbers and expand the scope of company types. It maximises crossover between the extrusion, compounding, and recycling industries.

Chemical Recycling zone

Chemical recycling is a fast growing and dynamic sector and 50% of past attendees expressed an interest to meet with suppliers and learn about their technologies.

Polymer Testing zone

This zone serves as a dedicated area for researchers and scientists involved in the advancement of new plastics materials and products, answering their needs for more accurate testing and analysis technologies.

Start-up zone

Are you a start-up with a new technology, material, or process? Our brand-new start-up zone is the perfect place to showcase your products and services to the compounding, extrusion and recycling industries.

Stand prices

Exhibition packages:

9 sqm - €5,100

12 sqm - €6,100

15 sqm - €7,100

18 sqm - €8,100

Space only:

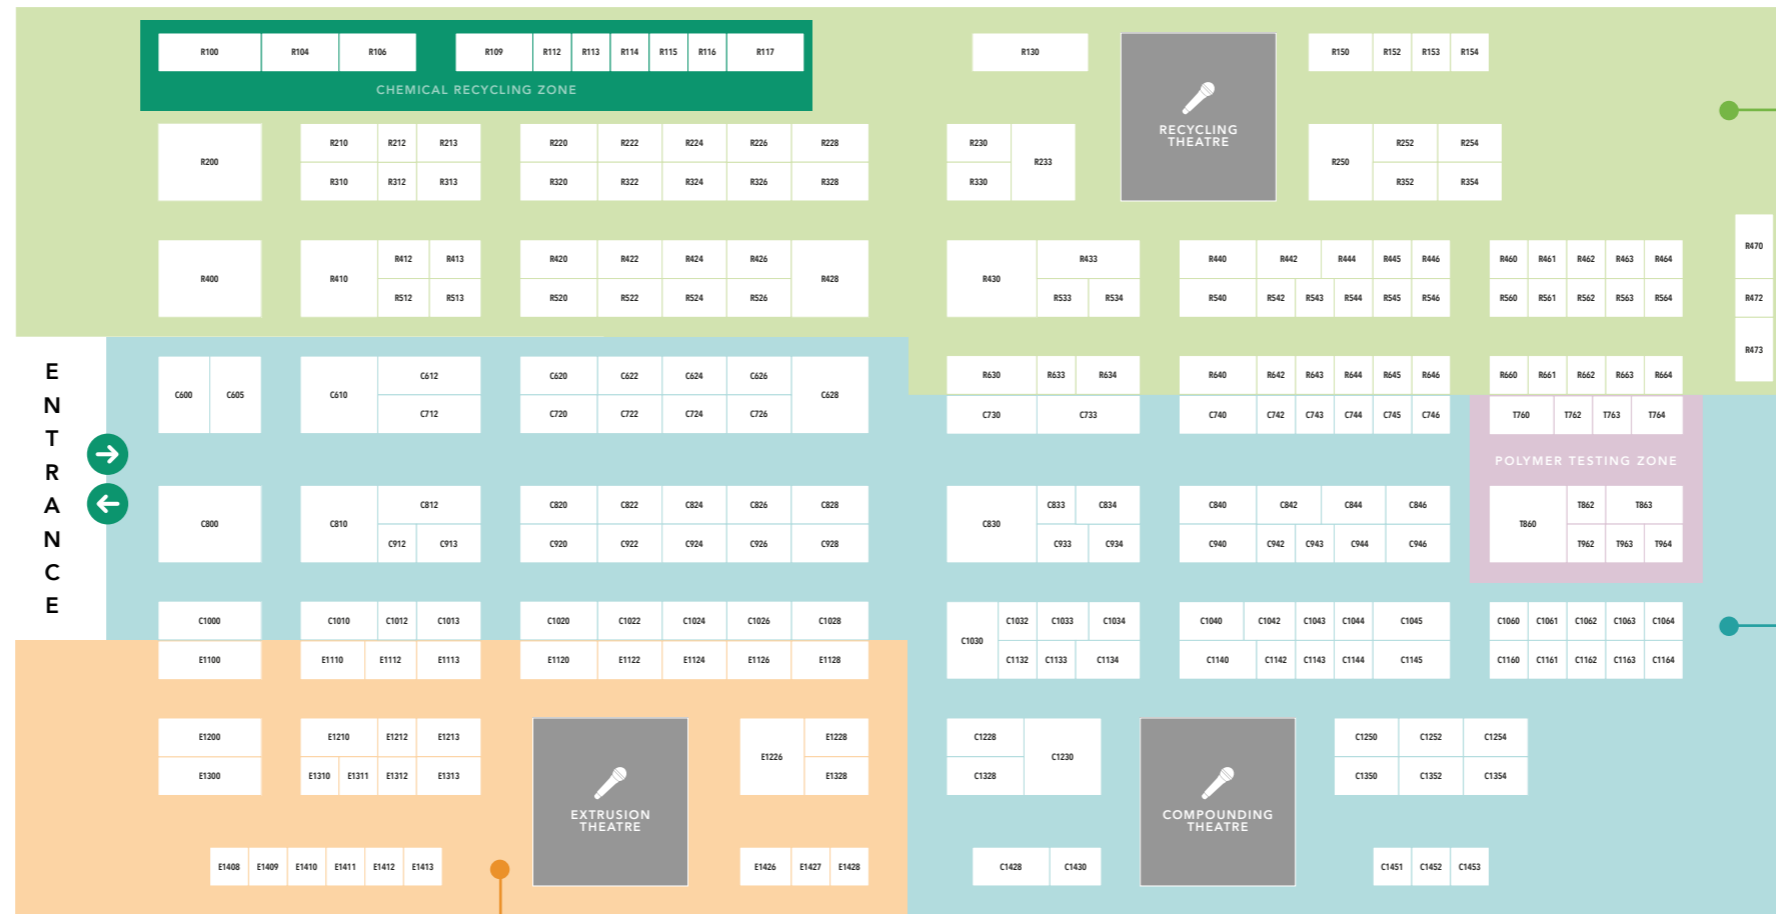

€365 per sqm

Shell scheme:

€390 per sqm

Exhibition packages include a shell scheme stand with walls, carpet, fascia board featuring your company name, two spotlights, standard electrical connection, one table, two chairs and a welcome counter.

All prices are quoted exclusive of VAT. UK business customers will be subject to UK VAT at 20%. For business customers purchases are outside the scope of UK VAT (0%).

Start-up zone

Are you a start-up* with a new technology, material, or process? Exhibit in our brand-new Start-up zone and showcase your products and services. Our specialised expos attract a targeted audience, ensuring the event aligns perfectly with your business objectives.

Sponsorship opportunities

Want to raise your profile at the show? We have a wide range of additional sponsorship opportunities available. Contact our sales team to find out more.

New zones for 2024

Book a stand in our dedicated zones for Chemical Recycling, Polymer Testing and Start-ups.

*companies must be less than three years old and under 100 employees

Previous attending companies include:

AB Kunststoff Recycling	Fortum	Plastformance
Actega	Forvia	Plastic Omnium
Akro Compounds	Gabriel Chemie	Polycycle / Polifilm
Aldi Nord	Galloo	Polykemi
Almaak International	Gema Polimer	Polyplast Müller
Alphagary	Gerflor	Pöppelmann
Ampacet	GF Piping Systems	PreZero Kunststoffrecycling
Aptar Pharma	Govaplast / Govaerts Recycling	Procter & Gamble
Asahi Kasei	Grafe	Prysmian
Avient	Granulat Bis	QolorTech
Bericap	Green Dot	Radici
Berry BPI	Green World Compounding	Ranago
Beryl Circular	Honda	Reckitt Benckiser
Bischof + Klein	Hyundai Engineering	Rehau
Cedo Recycling	Innovia Composites	Robert Bosch
Celanese	Interseroh	Röchling
Colloids	Interzero Plastics recycling	Romira
ColorFabb	Itero	Rondo Plast
Constantia	Julio Garcia E Hijos	Sabic
Continental Compounders	JV UzAuto Cepla	Schneider Electric
ContiTech	Kablo Vrchlabi	Sport Group
Coveris	Kaskada	Stabilplastik
CPC - Color Plastic Chemie	Kraton	Südpack
Cypol	Kunz Packaging	Suez
D&G Recycling	Lati	Taghleef
Daly Plastics	Leoni Kabel	Tarkett
Das Rezyklat	LyondellBasell	TE Connectivity
De Paauw	Melos	Teknor Apex
Delta Kunststoffe	Metroplast	Tetra Pak
Delta Tecnic	Microfol Compounding	The Compound Company
DeltaQ	Miele	Toyota Boshoku
Denso Automotive	Mixer Compounds	Treffert
Der Grüne Punkt	Mocom Compounds	Tricoflex
Ecopolplast	MOL Group	Trocellen
EcoWerf	Moncler	Vamp Tech
Electrolux	Mondi	Veolia Polymers
Ensinger	Multitubes	Wells Plastics
Envalor	Nestlé Waters	Winpack
Eurotec	Nexans	Wipag
FKuR	Penn Color	Yanfeng Automotive Interiors
Ford-Werke	Pestan	Zell Metall
Forplast	Philips	and hundreds more...

Visitor profiles

The three co-located expos attract attendees from across the plastics supply chain including:

- Compounders
- Masterbatch makers
- Waste managers
- Plastics recyclers
- Film and sheet extruders
- Pipe, profile and tubing extruders
- Packaging producers
- OEMs and brand owners
- R&D centres and academic organisations

Plastics processors and end-users from all main markets, including:

- Automotive and transport
- Packaging
- Construction and infrastructure
- Electrical and electronic
- Medical
- Consumer goods
- Industrial

"It is my third time here at the Plastics Recycling World Expo and I can definitely recommend it. It is always a great place for collaboration."

Florian Riedl, APK

Brussels - our new location for 2024

Brussels has fantastic transport connections by rail and by air and is easily accessible from major industrial hubs across Benelux, North Rhine-Westphalia, Northern France and beyond. The city also boasts excellent hotel and dining options to suit all budgets and tastes.

For those traveling to the Expos by public transport, there is a tram stop right outside the halls, while for anyone arriving by car there is ample parking at the venue.

One of the world's 24 Alpha "global cities", Brussels is home to the European Headquarters of many international materials and manufacturing companies. It is also the major centre for policy making on issues such as recycling strategies and chemical regulations.

All these factors combine to make Brussels the perfect place to host the AMI Plastics World Expos.

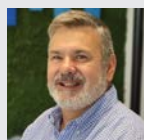

About AMI

AMI has been running plastics industry events in Europe and America for more than 30 years and has a portfolio of more than 50 events. It has successfully launched the AMI Plastics World Expos in Essen, Germany and Cleveland, Ohio, USA, attracting more than 3,000 attendees at each location.

Through its market research work, AMI has a deep understanding of plastics supply chains and extensive databases of processors.

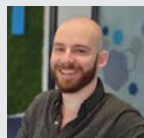

It also publishes five industry magazines; Compounding World, Plastics Recycling World, Film and Sheet Extrusion, Pipe and Profile Extrusion and Injection World, reaching over 150,000 plastics professionals.
