Post-show report

Cleveland hosts the largest AMI Plastics World Expos to date!

The AMI Plastics World Expos took place in Cleveland, OH, USA for the fourth time on November 15-16, 2023 and attracted record numbers of exhibitors and visitors.

The event brought together four focused exhibitions - the Compounding World, Plastics Recycling World, Plastics Extrusion World and Polymer Testing World Expos.

Highlights from 2023

5,134
attendees

347
exhibitors

109
speakers

48 states
represented

"Impressive growth of exhibitors this year and a good mix of companies. We were thrilled to have generated dozens of new business leads."

Steve Torchia, Sasol Chemicals North America

Exhibitors included:

“The Expo is an excellent opportunity for catching up with current suppliers and learning about other products and services in the industry. I will certainly add this event to my calendar next year.”

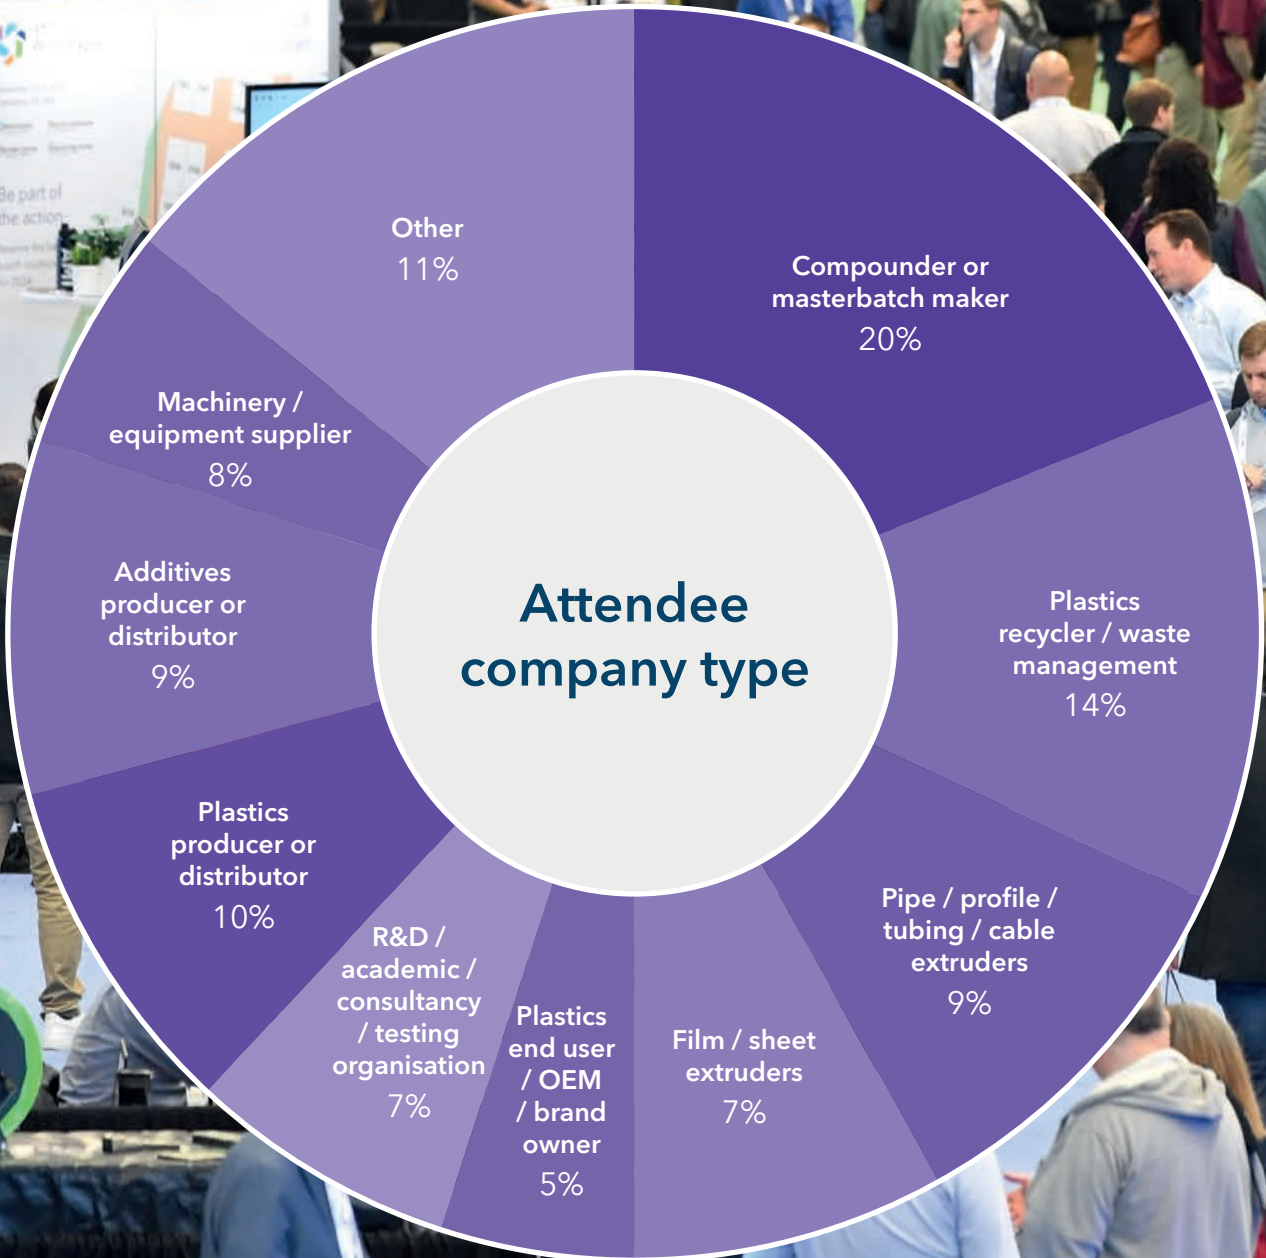

Josh Hensley, Westlake Royal Building Products

Attending companies

These are just some of the hundreds of plastics compounders, recyclers, extruders and end-users that were represented at the trade show. Most of these companies sent multiple attendees, in some cases more than 30!
