

AMI Plastics World Expos

NORTH AMERICA

November 13-14, 2024 // CLEVELAND, OH, USA

The focused North American trade show for plastics compounding,
extrusion, recycling and testing

EXHIBITION BROCHURE

Maximize your company's visibility and reach the perfect audience at our targeted exhibitions

The Compounding World Expo, Plastics Extrusion World Expo, Plastics Recycling World Expo, and Polymer Testing World Expo are returning to Cleveland, OH.

Building on the success of our four previous editions, these expos have become established meeting places for the industry.

The exhibitions feature four specialized theaters hosting dynamic two-day programs filled with technical presentations, seminars, and industry discussions. Attendance to both the expos and conference sessions is free, attracting large audiences with a specific focus on your markets.

This unique combination of trade shows promotes cross-market collaboration, providing your company with a cost-effective and time-efficient platform to showcase its products and services

Here are some of the ways exhibiting will benefit you:

Raise your brand awareness throughout the supply chain

Reconnect with existing customers face-to-face

Build new leads and grow your sales pipeline

Present your latest products and services to a focused and engaged audience

Gather market intelligence and gain valuable insights at this major industry gathering

Benefit from an extensive promotional campaign in AMI's five magazines

Highlights from 2023

5,134
attendees

347
exhibitors

109
speakers

48 states
represented

"The free admission is fantastic. What a great way to draw people from all areas of manufacturing that might not otherwise attend these types of events."

Timothy Michalowski, Berlyn ECM

Floorplan

Find the perfect booth to present your products to thousands of potential customers.

Attendee company type

Our expos bring in a focused audience meaning you're more likely to engage with potential customers who are genuinely interested in your products or services.

Show highlights

Watch the video below to find out what our expos are all about.

“Impressive growth of exhibitors this year and a good mix of companies. We were thrilled to have generated dozens of new business leads.”

Steve Torchia, Sasol Chemicals North America

About AMI

AMI is a renowned global organizer of events for the plastics industry. With an extensive portfolio of over 50 events held annually in Europe, America and Asia, we offer a wide range of opportunities for industry professionals to connect and learn. Our events feature a wealth of expertise, with more than 1,000 expert presentations delivered, attracting a substantial audience of over 10,000 plastics industry professionals annually.

Among our notable events are the AMI Plastics World Expos held in Europe and North America. These focused trade shows have become key highlights, drawing in thousands of attendees seeking industry insights and networking opportunities.

In addition to our event organization, AMI is a trusted provider of information and market intelligence for the global plastics industry. Our dedicated team of consultants, researchers and writers possess extensive knowledge of the global plastics processing industry.

We stay abreast of market trends and future directions, enabling us to identify exciting market opportunities, new customers and innovative technologies that can drive your business growth.
